ISO A4 (210MM × 297MM) INTERNATIONAL PRINTABLE & FILLABLE ACTION WORKBOOK

The AI Freelancer Operating System — Interactive Action Workbook

10 Standalone 5-Part Operational Worksheets (Worksheets 1.1 through 10.1) for Auditing Effective Hourly Rate, Packaging 3-Tier Offers, Pricing with B.C.R., Defending Scope Boundaries, and Scaling as a Weekly CEO

Digital Knowledge Product Studio • Tier 2 & Tier 3 Interactive Workbook Suite • Print & AcroForm Edition

Practitioner 10-Stage Implementation Index & Sign-Off Tracker

Click any worksheet title below to jump directly to its five-part execution template (`Part A` through `Part E`):

Worksheet	Operational Audit & Execution Template	Paired Chapter	Installation Status	Sign-Off Date
Worksheet 1.1	The 7-Day Time & Revenue Leak Audit	Chapter 01 • Prompts 1.1–1.5	☐ Pending ☐ Installed	____ / ____ / 2026
Worksheet 2.1	The 3-Tier Productized Offer & Scope Boundary Matrix	Chapter 02 • Prompts 2.1–2.5	☐ Pending ☐ Installed	____ / ____ / 2026
Worksheet 3.1	The P.A.C.E. Lead Triage & 10-Minute B.R.I.E.F. Proposal Builder	Chapter 03 • Prompts 3.1–3.5	☐ Pending ☐ Installed	____ / ____ / 2026
Worksheet 4.1	The B.C.R. Precision Pricing & Margin Defense Calculator	Chapter 04 • Prompts 4.1–4.5	☐ Pending ☐ Installed	____ / ____ / 2026
Worksheet 5.1	The 48-Hour Onboarding & Asset Gate Checklist	Chapter 05 • Prompts 5.1–5.5	☐ Pending ☐ Installed	____ / ____ / 2026
Worksheet 6.1	The 20/60/20 Sandwich Execution & 4-Gate Quality Assurance Workbook	Chapter 06 • Prompts 6.1–6.5	☐ Pending ☐ Installed	____ / ____ / 2026
Worksheet 7.1	The P.V.P. Scope Boundary, Change Order & Late-Payment Escalation Log	Chapter 07 • Prompts 7.1–7.5	☐ Pending ☐ Installed	____ / ____ / 2026
Worksheet 8.1	The 3-Pillar Async Status, Loom Walkthrough & Guided Feedback Tracker	Chapter 08 • Prompts 8.1–8.5	☐ Pending ☐ Installed	____ / ____ / 2026
Worksheet 9.1	Executive Handover, Testimonial Capture & Offboard-to-Retainer Bridge	Chapter 09 • Prompts 9.1–9.5	☐ Pending ☐ Installed	____ / ____ / 2026

Worksheet	Operational Audit & Execution Template	Paired Chapter	Installation Status	Sign-Off Date
Worksheet 10.1	The 20-Minute Friday CEO Scorecard, Client EHR Pruning & 90-Day Scaling Roadmap	Chapter 10 • Prompts 10.1–10.5	☐ Pending ☐ Installed	____ / ____ / 2026

Standalone Action Worksheet 01: The 7-Day Time & Revenue Leak Audit

Companion Workbook Edition: *The AI Freelancer Operating System* (Tier 0 Free Lead Magnet & Tiers 2–3 Interactive Workbook Suite)
Format Compatibility: Print (`US Letter 8.5" x 11"` / `ISO A4`), Interactive AcroForm PDF, and Hyperlinked Tablet Digital Planner (`GoodNotes / Notability / reMarkable`)
Paired Manuscript Chapter: Chapter 1 — *The Overwhelmed Freelancer's Bottleneck (The 5-Stage Operating Model)*

Instructions for Execution

Use this standalone five-part worksheet to establish your baseline operational metrics during Week 1 and lock in your daily execution habits. If you are using the **Complete Operating System (`Tier 3`)** or the **Free Lead Magnet (`Tier 0`)**, you can also enter your **Part A** numbers directly into **Module 1 (Interactive EHR Leak Calculator)** inside `freelancer-os-app.html` for instant visual calculation and PDF export.

- **Audit Period Start Date:** `____ / ____ / 2026`
- **Audit Period End Date:** `____ / ____ / 2026`
- **Practitioner Name / Studio:** `_____`
- **Primary Service Niche:** `_____`

Part A: EHR Diagnostic (Baseline Effective Hourly Rate & Leak Calculator)

Step A1: 7-Day Raw Time Bucket Log (In 0.5-Hour Increments)

Track every working hour across seven consecutive days into the four strict operational buckets: * **Bucket A (Core Billable Craft):** Direct high-skill execution on signed, in-scope client deliverables. * **Bucket B (Unbilled Client Friction):** Unscoped revisions, Slack/email hand-holding, chasing missing logins/files. * **Bucket C (Sales & Proposal Overhead):** Discovery calls, custom proposal writing, lead follow-ups. * **Bucket D (Internal Admin Debt):** Invoicing, bookkeeping, folder organization, context-switching recovery.

Day of Week	Bucket A Hours *(Billable Craft)*	Bucket B Hours *(Unbilled Friction)*	Bucket C Hours *(Sales & Proposals)*	Bucket D Hours *(Internal Admin)*	Daily Total Hours *(A + B + C + D)*	Primary Friction Note / Leak Observed
Monday	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`	`_____`
Tuesday	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`	`_____`
Wednesday	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`	`_____`
Thursday	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`	`_____`
Friday	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`	`_____`
Saturday	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`	`_____`
Sunday	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`	`_____`
7-DAY TOTAL	**`____ hrs`** *(Line C1)*	**`____ hrs`** *(Line C2)*	**`____ hrs`** *(Line C3)*	**`____ hrs`** *(Line C4)*	**`____ hrs`** *(Line D)*	**Feed Totals into Prompt 1.1**

Step A2: Baseline Effective Hourly Rate (EHR) Calculation Table (Lines A–H)

Line ID	Financial & Operational Metric	Exact Formula / Input Rule	Benchmark Target	Your Audited Value
Line A	**Gross Weekly Revenue Billed (USD)**	`Monthly Gross Revenue ÷ 4.0 Weeks`	`$1,000–$2,500+`	`$_____`
Line B	**Nominal Target Hourly Rate (USD)**	`Your quoted hourly or package baseline rate`	`$60.00–$125.00/hr`	`$_____ / hr`
Line C1	**Bucket A: Core Billable Craft Hours**	`7-Day Total from Column A above`	`>= 65% of Line D`	`_____ hrs`
Line C2	**Bucket B: Unbilled Client Friction Hours**	`7-Day Total from Column B above`	`<= 5% of Line D`	`_____ hrs`
Line C3	**Bucket C: Sales & Proposal Hours**	`7-Day Total from Column C above`	`<= 15% of Line D`	`_____ hrs`
Line C4	**Bucket D: Internal Admin Debt Hours**	`7-Day Total from Column D above`	`<= 15% of Line D`	`_____ hrs`
Line D	**Total Real Working Hours per Week**	`Line C1 + Line C2 + Line C3 + Line C4`	`<= 38.0 hrs/wk`	`_____ hrs`
Line E	**Billable Craft Utilization Ratio (%)**	`(Line C1 ÷ Line D) × 100`	`>= 65.0%`	`_____ %`
Line F	**Actual Effective Hourly Rate (EHR)**	**`Line A ÷ Line D`**	**`>= 80% of Line B`**	**`$_____ / hr`**
Line G	**Hourly Rate Erosion Gap (USD/hr)**	`Line B - Line F`	`< $12.00 / hr`	`-$_____ / hr`
Line H	**Monthly Unbilled Client Friction Loss**	`Line C2 × Line B × 4.0 Weeks`	`$0.00 / month`	**`$_____ / mo`**

Part B: 5-Stage Scorecard (Client Lifecycle Bottleneck Audit)

Score each of the five operational circuit-breaker gates from `1` **(No Gate / Reactive Chaos)** to `5` **(Systematized & Enforced Gate)**:

Stage Gate	Operational Gate Standard	Self-Audit Score (`1-5`)	Specific Evidence / Current Gap in Your Business	Target Fix Chapter
Stage 01: Input Gate *(Attract & Lead Triage)*	My services are packaged into 3 clear tiers, leads pass a pre-call red-flag filter, and proposals take `<= 15 mins`.	`[ 1 ] [ 2 ] [ 3 ] [ 4 ] [ 5 ]`	_____	**Chapters 2 & 3**
Stage 02: Commercial Gate *(Scope & Margin Defense)*	Every quote uses the `B.C.R.` formula, includes explicit exclusion clauses, and requires a `50%` upfront deposit.	`[ 1 ] [ 2 ] [ 3 ] [ 4 ] [ 5 ]`	_____	**Chapter 4**
Stage 03: Kickoff Gate *(48-Hr Client Onboarding)*	The delivery clock never starts until 100% of logins, brand files, and communication rules are signed off within 48 hours.	`[ 1 ] [ 2 ] [ 3 ] [ 4 ] [ 5 ]`	_____	**Chapter 5**

Stage Gate	Operational Gate Standard	Self-Audit Score (1-5)	Specific Evidence / Current Gap in Your Business	Target Fix Chapter
Stage 04: Delivery Gate *(Execute & Boundary Control)*	I execute via the 20/60/20 Sandwich Method and trigger a priced P.V.P. Change Order on 100% of out-of-scope requests.	[1] [2] [3] [4] [5]	_____	**Chapters 6, 7 & 8**
Stage 05: Expansion Gate *(Offboard & Retainer Bridge)*	Every project ends with a clean SOP handover vault, an ROI case-study interview, and a 90-day retainer proposal.	[1] [2] [3] [4] [5]	_____	**Chapters 9 & 10**
OVERALL SCORE	**Total Lifecycle Gate Integrity (Max: 25)**	_____ / 25	**Single Lowest-Scoring Gate:** _____	**Start Here Next**

Part C: Daily 3-Block Priority Planner (5-Day Execution Template)

Use **Prompt 1.3** every afternoon at 4:45 PM (or 8:15 AM) to lock your three protected daily blocks before opening your inbox:

Workday	Block 1: 90-Min Maker Block *(08:30–10:00 • Zero Inbox/Slack • Single Bucket A Deliverable)*	Block 2: 30-Min AI Admin Sprint *(11:30–12:00 • Batch Triage & Prompt 1.4 Replies)*	Block 3: 90-Min Delivery & Pipeline *(13:30–15:00 • 60m Craft + 30m Proposals)*	Block 1 Protected? (Y/N)
Monday	**Client / Milestone:** _____ **DoD:** _____	**Top 3 Replies / Change Orders:** 1. _____ 2. _____	**Delivery:** _____ **Pipeline:** _____	[Y / N]
Tuesday	**Client / Milestone:** _____ **DoD:** _____	**Top 3 Replies / Change Orders:** 1. _____ 2. _____	**Delivery:** _____ **Pipeline:** _____	[Y / N]
Wednesday	**Client / Milestone:** _____ **DoD:** _____	**Top 3 Replies / Change Orders:** 1. _____ 2. _____	**Delivery:** _____ **Pipeline:** _____	[Y / N]
Thursday	**Client / Milestone:** _____ **DoD:** _____	**Top 3 Replies / Change Orders:** 1. _____ 2. _____	**Delivery:** _____ **Pipeline:** _____	[Y / N]
Friday	**Client / Milestone:** _____ **DoD:** _____	**Top 3 Replies / Change Orders:** 1. _____ 2. _____	**13:30–14:45 Delivery + 15:00 Friday CEO Retro (Part D)**	[Y / N]

Part D: Friday 15-Minute CEO Retro (Weekly Bottleneck & Margin Review)

Complete every Friday at 3:00 PM alongside **Prompt 1.5** (*Friday 15-Minute Bottleneck Retrospective Synthesizer*) and **Prompt 1.2** (*Service Delivery SOP Extractor*):

1. **Weekly EHR & Utilization Check:** * **Gross Revenue Billed + Change Orders Captured This Week:** `$_____` * **Total Real Working Hours Logged (Buckets A + B + C + D):** `_____ hrs` * **This Week's Actual Effective Hourly Rate (EHR):** `$_____ / hr` *(Variance vs. Baseline Line F: `+$_____ / hr`)*
2. **Scope Circuit-Breaker Audit (Gate 1 + Prompt 1.4):** * **Out-of-Scope Client Requests Received This Week:** `____` * **Converted to Paid Change Orders:** `____` *(Total Extra Revenue Captured: `+$_____`)* * **Deferred / Dropped by Client Without Unpaid Work:** `____` * **Slipped Through as Unpaid Work (Target: 0):** `____`
3. **Top Recurring Operational Bottleneck This Week:** * *Describe the single task, client misunderstanding, or admin delay that wasted the most time this week:*

   `_____`
4. **20-Minute System Fix / New SOP Extracted (via Prompt 1.2):** * *Name of checklist, template, or boundary clause created today so this bottleneck never repeats:*

   `_____`

Part E: Chapter 1 Sign-Off Checklist

Verify that all five foundational installation steps are complete before moving to **Chapter 2 (*Positioning & Productized Service Packaging*)**:

- ☐ **1. Baseline EHR Locked:** I have completed 7 days of Bucket A/B/C/D tracking in **Part A**, run **Prompt 1.1**, and recorded my exact baseline Effective Hourly Rate (`Line F : $_____/hr`).
- ☐ **2. Lifecycle Bottleneck Identified:** I have scored all five gates in **Part B** (`Total Score: ____/25`) and identified my single weakest lifecycle gate.
- ☐ **3. Daily 3-Block Calendar Installed:** My calendar has recurring holds for **Block 1 (90-Min Maker Block)**, **Block 2 (30-Min AI Admin Sprint)**, and **Block 3 (90-Min Delivery & Pipeline Block)**.
- ☐ **4. Boundary Reply Tested:** I have customized **Prompt 1.4** with my current project scope variables and saved the output template for immediate use during midday triage sprints.
- ☐ **5. First SOP Extracted:** I have run **Prompt 1.2** on at least one repetitive client workflow and saved the resulting 1-page checklist in my operations folder.

Practitioner Sign-Off Date: `____ / ____ / 2026` • **Ready for Chapter 2:** `[ YES ]`

Standalone Action Worksheet 02: The Productized Offer & Scope Boundary Blueprint

Companion Workbook Edition: *The AI Freelancer Operating System* (Tiers 2–3 Interactive Workbook Suite)
Format Compatibility: Print (`US Letter 8.5" x 11"` / `ISO A4`), Interactive AcroForm PDF, and Hyperlinked Tablet Digital Planner (`GoodNotes / Notability / reMarkable`)
Paired Manuscript Chapter: Chapter 2 — *Positioning & Productized Service Packaging*

Instructions for Execution

Complete all five sections of this worksheet alongside **Prompts 2.1 through 2.5** to retire open-ended hourly quoting and lock your **3-Tier Productized Offer Matrix**, **Explicit Exclusion Shield**, and **One-Page Service Tear-Sheet**.

- **Practitioner / Studio Name:** _____
- **Target Buyer Role & Industry:** _____
- **Date Completed:** `____ / ____ / 2026`

Part A: Past Project Margin & Friction Audit (Input for Prompt 2.1)

Review your last five completed client projects. Calculate the **Actual Effective Hourly Rate (`EHR = Fee ÷ Real Hours`)** and score each project from `1` (Low) to `10` (High) on **Repeatability** and **Client ROI Urgency**:

Project ID & Client Description	Gross Fee Collected (USD)	Real Hours Invested *(All Buckets)*	Actual Project EHR (`Fee ÷ Hrs`)	Repeatability Score (`1–10`)	Buyer ROI Urgency (`1–10`)	Scope Friction Note *(Smooth vs. Chaotic)*
1. _____	$_____	____ hrs	$_____/hr	____ / 10	____ / 10	_____
2. _____	$_____	____ hrs	$_____/hr	____ / 10	____ / 10	_____
3. _____	$_____	____ hrs	$_____/hr	____ / 10	____ / 10	_____
4. _____	$_____	____ hrs	$_____/hr	____ / 10	____ / 10	_____
5. _____	$_____	____ hrs	$_____/hr	____ / 10	____ / 10	_____

- **Winning 80%-Repeatable Core Service Selected for Productization:**
  _____
- **Low-EHR Hourly / Ad-Hoc Service Immediately Retired:**
  _____

Part B: 3-Tier Productized Offer Design Canvas (Output from Prompt 2.2)

Architect your three commercial tiers using the `1 : 4 : 3/mo` anchor ratio:

Package Architecture Element	Tier 1: Diagnostic Starter *(Paid Audit • 15%–25% of Tier 2)*	Tier 2: Core Transformation *(Flagship Sprint • 1.0x Anchor)*	Tier 3: Retainer Partner *(Recurring • 65%–85% of Tier 2/mo)*
Commercial Package Name	_____	_____	_____
Fixed Package Price (USD)	$_____	$_____	$_____ / mo
Payment Milestone Terms	100% Upfront at Booking	50% Deposit / 50% Day ____	Auto-Billed Day 1 (3-Mo Min)
Locked Turnaround Window	____ Business Days	____ Calendar Days	Monthly Cycle (Zero Rollover)
Core Deliverable #1 (Cap)	_____	_____	_____
Core Deliverable #2 (Cap)	_____	_____	_____
Core Deliverable #3 (Cap)	_____	_____	_____
Core Deliverable #4 (Cap)	14-Day 100% Credit to Tier 2	_____	_____
Revision Allowance Cap	0 Rounds (Diagnostic Only)	2 Consolidated Rounds	1 Pass per Monthly Item
Target Real Hours Budgeted	____ hrs	____ hrs	____ hrs / month
Projected Package EHR	$_____ / hr	$_____ / hr	$_____ / hr

Part C: Explicit Exclusion & Add-On Menu Builder (Output from Prompt 2.3)

Step C1: The 6-Point "What Is Not Included" Boundary Shield

Write the six explicit exclusions that appear on every tear-sheet and contract: 1. **Adjacent Craft Exclusion:** _____ 2. **Third-Party Software / Font / Licensing Exclusion:** _____ 3. **Content / Asset Preparation Exclusion:** _____ 4. **Live Meeting / Unscheduled Call Cap:** _____ 5. **Revision Cap & Consolidated Feedback Rule:** _____ 6. **Post-Handover Maintenance Window Cap:** _____

Step C2: Pre-Priced Add-On Upgrade Menu

Add-On Code	Optional Upgrade Deliverable	Exact Unit Scope & Cap	Fixed Price (USD)	Added Turnaround
ADD-01	_____	_____	+$_____	+____ Bus. Days
ADD-02	_____	_____	+$_____	+____ Bus. Days
ADD-03	_____	_____	+$_____	+____ Bus. Days
ADD-04	Rush / Expedited Turnaround	Priority Sprint Compression	+$____ (+30%)	Expedited

Add-On Code	Optional Upgrade Deliverable	Exact Unit Scope & Cap	Fixed Price (USD)	Added Turnaround
ADD-05	`Additional Revision Round`	`1 Consolidated Feedback Pass`	`+$_____`	`+3 Bus. Days`

Part D: One-Page Tear-Sheet Wireframe & Positioning Lock (Prompts 2.4 & 2.5)

1. **Commercial Positioning Formula (Prompt 2.5):** * *"We help* `[Buyer Segment: _____]` *eliminate* `[High-Cost Bottleneck: _____]` *and achieve* `[Measurable Outcome: _____]` *in* `[Locked Timeframe: _____ days]` *using our* `[Named System: _____]` *—without* `[Primary Friction: _____]`*."*
2. **1-Line LinkedIn / Portfolio Hero Headline (Max 18 Words):**
   `_____`
3. **One-Page Service Tear-Sheet Publication URL / File Path (Prompt 2.4):**
   `_____`

Part E: Chapter 2 Sign-Off Checklist

Verify completion of all five commercial packaging gates before advancing to **Chapter 3 (*The 10-Minute Lead Triage & Proposal Engine*)**:

- ☐ **1. Hourly Rate Retired from Public Materials:** I have removed open-ended hourly rates from my website, LinkedIn profile, and discovery call scripts.
- ☐ **2. 3-Tier Offer Matrix Locked:** I have defined exact names, deliverable counts, revision caps, and fixed prices for **Tier 1 (** `$____` **)**, **Tier 2 (** `$____` **)**, and **Tier 3 (** `$____/mo` **)** in **Part B**.
- ☐ **3. Explicit Exclusion Shield Built:** I have written my 6-point "*What Is Not Included*" clause and priced 5 common upgrade items in **Part C**.
- ☐ **4. One-Page Service Tear-Sheet Published:** I have generated my 1-page tear-sheet via **Prompt 2.4** so leads can view my price anchors before booking a call.
- ☐ **5. Positioning Statement Upgraded:** I have stress-tested and updated my commercial headline using **Prompt 2.5**.

Practitioner Sign-Off Date: `____ / ____ / 2026` • **Ready for Chapter 3:** `[ YES ]`

Standalone Action Worksheet 03: Lead Triage Scorecard & 10-Minute Proposal Assembly

Companion Workbook Edition: *The AI Freelancer Operating System* (Tiers 2–3 Interactive Workbook Suite)
Format Compatibility: Print (`US Letter 8.5" x 11"` / `ISO A4`), Interactive AcroForm PDF, and Hyperlinked Tablet Digital Planner (`GoodNotes / Notability / reMarkable`)
Paired Manuscript Chapter: Chapter 3 — *The 10-Minute Lead Triage & Proposal Engine*

Instructions for Execution

Use this five-part standalone worksheet alongside **Prompts 3.1 through 3.5** to install your **4-Question Pre-Call Intake Gate**, score inbound leads against toxic red flags, capture live **B.R.I.E.F.** call notes in 20 minutes, and track your **48-Hour / 5-Day / 10-Day Proposal Follow-Up Sequence**.

- **Practitioner / Studio Name:** `_____`
- **Tier 1 / Tier 2 / Tier 3 Price Anchors (USD):** `$_____` / `$_____` / `$_____/mo`
- **Date Installed:** `____ / ____ / 2026`

Part A: 4-Question Pre-Call Intake Gate Setup

Configure these exact four mandatory intake questions on your website contact form, Tally/Typeform, or pre-call email responder before any calendar booking link is revealed:

Question #	Mandatory Intake Question Wording	Input Field Type & Qualification Rule	Installed? (`Y/N`)
Q1: Bottleneck	*"In 2–3 sentences, what is the #1 bottleneck or project outcome you want solved right now?"*	**Short Paragraph Text** *(Must match your 80%-repeatable craft)*	`[ Y / N ]`
Q2: Timeline	*"What is your target launch/completion date, and what business event is driving that date?"*	**Short Text + Date** *(Rejects `< 72-hr` unpaid emergencies)*	`[ Y / N ]`
Q3: Budget Floor	*"Based on our attached 1-Page Service Tear-Sheet, which investment range fits your allocated budget?"*	**Mandatory Radio Buttons:** `( ) Under $[____] (Not ready)` `( ) $[____]–$[____] (Tier 1 Audit)` `( ) $[____]–$[____] (Tier 2 Sprint)` `( ) $[____]+/mo (Tier 3 Retainer)`	`[ Y / N ]`
Q4: Authority	*"Aside from yourself, who else is involved in approving the scope and budget for this sprint?"*	**Short Text** *(Identifies economic buyer before call)*	`[ Y / N ]`

Part B: Lead Red-Flag & Qualification Scorecard (0–20 Points • Prompt 3.2)

Score each incoming inquiry before booking a discovery call:

- **Prospect Name & Company:** `_____`
- **Date Inquiry Received:** `____ / ____ / 2026`

Scoring Criterion	`0 Points` (Red Flag)	`3 Points` (Yellow / Caution)	`5 Points` (Green / Ideal)	Score (`0–5`)
1. Budget Floor Alignment	Under 80% of Tier 1 minimum or refuses to state range	Matches Tier 1 Diagnostic Starter (`$250–$750`)	Matches Tier 2 Core Sprint (`$1,500–$5,000+`) or Tier 3	`____ / 5`
2. Core Problem Repeatability	Outside core craft or vague hourly request	Needs diagnostic architecture before quoting sprint	Exact match for flagship Tier 2 transformation	`____ / 5`
3. Timeline & Urgency Health	Unreasonable rush demand (`< 72 hrs`) without rush fee	Vague "someday" timeline with no commercial driver	Concrete 14–30 day target tied to a real launch goal	`____ / 5`
4. Decision Authority & Tone	Demands free test work, equity only, or badmouths ex-vendors	Mid-level manager gathering 5 competitor quotes	Direct economic buyer with respectful, high-trust tone	`____ / 5`
TOTAL QUALIFICATION SCORE	`0–8 Pts:` **Action B Decline** • `9–14 Pts:` **Tier 1 Audit Only** • `15–20 Pts:` **Gate 3 Call**			`____ / 20`

- **Toxic Red Flags Detected (Check All That Apply):**
- `[ ]` Requested unpaid test task or speculative mockup
- `[ ]` Offered "exposure," "rev-share," or "future work if you discount this first one"
- `[ ]` Blamed 2+ previous freelancers for project failures
- `[ ]` Refused to complete the 4-Question Pre-Call Intake Form
- **Final Triage Action Taken:** `[ ] Action A (Async Hold)` • `[ ] Action B (Decline / Audit Only)` • `[ ] Gate 3 (20-Min Call Booked)`

Part C: Live Discovery Call B.R.I.E.F. Capture Grid (Prompts 3.1 & 3.3)

Fill out during your 20-minute diagnostic call, then paste directly into **Prompt 3.1** and **Prompt 3.3**:

B.R.I.E.F. Section	Call Minute Window	Diagnostic Notes & Verbatim Client Phrases Captured
B — Bottleneck Diagnosis	`Minutes 01–07`	**Verbatim Problem Quotes:** _____ **Root Operational Cause:** _____
R — ROI & Business Target	`Minutes 08–12`	**Weekly/Monthly Cost of Inaction (`$ / hrs`):** _____ **Target 30-Day Commercial Metric:** _____
I — Implementation Tiers	`Minutes 13–16`	**Tier 1 Price:** `$_____` • **Tier 2 Flagship:** `$_____` • **Tier 3:** `$_____/mo` **Client Self-Selected Preference:** `[ Option 1 / Option 2 / Option 3 ]`
E — Exclusions & Risks	`Minutes 17–18`	**Specific Exclusions / 3rd-Party Risks to Lock in Section E:** _____
F — Fixed Timeline & CTA	`Minutes 19–20`	**Reserved Kickoff Date:** `____/____/2026` • **7-Day Expiry Date:** `____/____/2026` **Proposal Sent Timestamp (`Target: <= 15 mins post-call`):** `____ : ____ AM/PM`

Part D: 48h / 5d / 10d Proposal Follow-Up Tracker (Prompt 3.5)

Track active B.R.I.E.F. proposals through the three-step decision sequence so zero leads linger in inbox limbo past Day 10:

Prospect & Company	Date Proposal Sent	Quoted Tier 2 Value (USD)	+48 Hr Insight Email Sent?	+5 Day Slot Expiry Sent?	+10 Day Close-File Sent?	Final Outcome (Won / Tier 1 / Closed)
1. _____	____/____	$_____	[ ] ____/____	[ ] ____/____	[ ] ____/____	_____
2. _____	____/____	$_____	[ ] ____/____	[ ] ____/____	[ ] ____/____	_____
3. _____	____/____	$_____	[ ] ____/____	[ ] ____/____	[ ] ____/____	_____
4. _____	____/____	$_____	[ ] ____/____	[ ] ____/____	[ ] ____/____	_____
5. _____	____/____	$_____	[ ] ____/____	[ ] ____/____	[ ] ____/____	_____

Part E: Chapter 3 Sign-Off Checklist

Verify completion of all five triage and proposal gates before advancing to **Chapter 4 (*Precision Pricing, Estimation & Margin Defense*)**:

- ☐ **1. 4-Question Intake Gate Live:** My public booking link is gated behind the four mandatory intake questions (`Part A`).
- ☐ **2. Red-Flag Scorer Operational:** I have saved **Prompt 3.2** and **Part B** to score every inbound inquiry in under 3 minutes.
- ☐ **3. 1-Page B.R.I.E.F. Master Template Locked:** I have configured **Prompt 3.3** with my three productized tiers and 7-day proposal validity clause.
- ☐ **4. Feature-to-ROI Reframer Tested:** I have run **Prompt 3.4** on my core technical deliverables so Section R of my proposals speaks directly to executive ROI.
- ☐ **5. 3-Touchpoint Follow-Up Sequence Queued:** I have generated my `+48h` , `+5d` , and `+10d Close-the-File` scripts via **Prompt 3.5** and set up my **Part D Tracker**.

Practitioner Sign-Off Date: `____ / ____ / 2026` • **Ready for Chapter 4:** `[ YES ]`

Standalone Action Worksheet 04: The B.C.R. Pricing & Margin Defense Calculator

Companion Workbook Edition: *The AI Freelancer Operating System* (Tiers 2–3 Interactive Workbook Suite & Pro Web App Module 2)
Format Compatibility: Print (`US Letter 8.5" x 11"` / `ISO A4`), Interactive AcroForm PDF, and Hyperlinked Tablet Digital Planner (`GoodNotes / Notability / reMarkable`)
Paired Manuscript Chapter: Chapter 4 — *Precision Pricing, Estimation & Margin Defense*

Instructions for Execution

Use this five-part standalone worksheet alongside **Prompts 4.1 through 4.5** (or interactively inside **Module 2 of** `freelancer-os-app.html`) to calculate your true Work Breakdown Structure (`WBS`) hours, apply **B.C.R. Complexity & Risk Multipliers**, lock your **Walk-Away Floor**, and pre-build your **Scope-Down Counter-Offer Menu**.

- **Practitioner / Studio Name:** _____
- **Package or Project Being Priced:** _____
- **Target Effective Hourly Rate (`EHR_target`):** `$_____ / hr` • **Walk-Away Minimum (`EHR_min`):** `$_____ / hr`

Part A: WBS Hidden-Hour & Overhead Estimator (Prompt 4.1)

Break your package or project into the five mandatory operational phases and compute **Weighted Expected Hours (`[Best + 4×Realistic + Worst] ÷ 6`)**:

WBS Phase & Deliverable Sub-Task	Best-Case Hours *(Zero Friction)*	Realistic Hours *(Standard Flow)*	Worst-Case Hours *(Client Friction)*	Weighted Expected Hours (`[B + 4R + W] ÷ 6`)
Phase 1: Onboarding, Asset Audit & Strategy Setup	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`
Phase 2A: Core Craft Deliverable #1 (`Bucket A`)	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`
Phase 2B: Core Craft Deliverable #2 (`Bucket A`)	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`
Phase 2C: Core Craft Deliverable #3 (`Bucket A`)	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`
Phase 3: Client Comms, Walkthroughs & PM (`>= 15%`)	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`
Phase 4: Revision Rounds 1–2 & Edge-Case QA (`>= 15%`)	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`
Phase 5: Final Pre-Flight, Handover & Offboard SOP	`____ hrs`	`____ hrs`	`____ hrs`	`____ hrs`
TOTAL WEIGHTED BASE EXECUTION HOURS (`H_base`)	**Naive Guess:** `____ hrs`	**Hidden Overhead Gap:** `+____ hrs`		`_____ hrs` *(Carry to Part C)*

Part B: B.C.R. Complexity (`C`) & Risk Buffer (`R%`) Multiplier Matrix (Prompt 4.2)

Circle the matching operational profile for this package or client inquiry to lock your **Complexity Multiplier (`C`)** and **Risk Buffer (`R%`)**:

Step B1: Complexity Multiplier (`C` — Range: `1.00x` to `1.50x`)

- `[ ]` `1.00x` **(Standard):** 1 single decision-maker, 80%-repeatable core craft, standard `14–30 day` sprint timeline.
- `[ ]` `1.15x` **(Moderate):** 2–3 stakeholders reviewing work OR moderate custom integration/research required.
- `[ ]` `1.30x` **(Elevated):** Compressed `7–10 day` priority timeline (`+25%` rush) OR complex multi-system architecture.
- `[ ]` `1.50x` **(High Friction):** 4+ stakeholder committee approval OR emergency `< 5 business day` rush turnaround.
- **Selected Complexity Multiplier (`C`):** `_____ x`

Step B2: Risk & Friction Buffer (`R%` — Range: `+0%` to `+30%`)

- `[ ]` `+0%` (`1.00` — **Low Risk):** 100% of client inputs/assets ready today; zero third-party vendor dependencies.
- `[ ]` `+15%` (`1.15` — **Moderate Risk):** Client still finalizing minor copy/assets OR project depends on 1 external app/vendor.
- `[ ]` `+30%` (`1.30` — **High Risk):** Disorganized client team, unverified legacy systems, or external agency/legal review dependencies.
- **Selected Risk Buffer Multiplier (`1 + R%`):** `1._____` (`+____%`)

Part C: 3-Tier Quote & Walk-Away Floor Calculation Sheet

Compute your exact commercial numbers using your **Part A (`H_base`)** and **Part B (`C` & `R%`)** inputs:

Line ID	B.C.R. Financial Metric	Calculation Formula	Your Locked Figure (USD)
Line 1	**Total Base Execution Hours (`H_base`)**	`From Part A Bottom Right Total`	`_____ hrs`
Line 2	**Hard Walk-Away Floor (`F_walk`)**	`Line 1 × Minimum Walk-Away Rate ($____/hr)`	`$_____`
Line 3	**Base Execution Cost (`B`)**	`Line 1 × Target EHR ($____/hr)`	`$_____`
Line 4	**Complexity-Adjusted Quote (`B × C`)**	`Line 3 × Part B1 Complexity Multiplier (____x)`	`$_____`
Line 5	**Final B.C.R. Flagship Quote (Tier 2)**	`Line 4 × Part B2 Risk Buffer (1.____) [Round to $50]`	`$_____`
Line 6	**Tier 1 Diagnostic Starter Quote (`20%`)**	`Line 5 × 0.20 [100% Upfront • 14-Day Credit]`	`$_____`
Line 7	**Tier 3 Priority / Retainer Anchor (`1.5x`)**	`Line 5 × 1.50 (or Monthly Retainer Equivalent)`	`$_____`
Line 8	**Calendar-Locked Milestone Split (Tier 2)**	`50% Kickoff ($____) / 50% Calendar Day ____ ($____)` *or* `40% ($____) / 30% Day 15 ($____) / 30% Day 30 ($____)`	**Dates Locked:** `[ Y / N ]`

Part D: Scope-Down Counter-Offer Menu (The Trade-Down Rule • Prompt 4.3)

Define the exact deliverables you will remove if a prospect's budget sits 20% to 25% below **Line 5** (never below **Line 2 Walk-Away Floor** for adjusted hours):

Scope Component	Included in Full Tier 2 ($_____)	Traded Down in Lean Option ($_____)	Hours Cut (-____ Hrs)
1. Primary Deliverable Volume	_____	_____	-____ hrs
2. Secondary Assets / Pages	_____	Moved to Phase 2 Post-Launch Backlog	-____ hrs
3. Revision Allowance	2 Consolidated Revision Rounds	1 Single Consolidated Revision Pass	-____ hrs
4. Turnaround Window	____ Calendar Days (Priority Slot)	____ Calendar Days (Standard Slot)	Protected
TOTAL LEAN COUNTER-OFFER	**Full B.C.R. EHR:** $_____/hr	**Lean Option EHR (Lean $ ÷ Lean Hrs):** $_____/hr	**-____ hrs saved**

Part E: Chapter 4 Sign-Off Checklist

Verify completion of all five pricing and margin defense gates before advancing to **Part II — Chapter 5 (*Zero-Friction Client Onboarding & Kickoff Architecture*)**:

- ☐ **1. WBS Hidden-Hour Audit Completed:** I have calculated my true **Base Execution Hours (H_base)** in **Part A** (including +15% PM and +15% QA/Revisions) via **Prompt 4.1**.
- ☐ **2. B.C.R. Quotes & Walk-Away Floor Locked:** I have computed my **Hard Walk-Away Floor (Line 2)** and **Final B.C.R. Flagship Quote (Line 5)** in **Part C** via **Prompt 4.2**.
- ☐ **3. Trade-Down Counter-Offer Pre-Built:** I have documented my **Lean Scope Trade-Down Menu (Part D)** and saved my **Prompt 4.3** negotiation email template.
- ☐ **4. Calendar-Locked Milestones Installed:** I have added **Prompt 4.4's** Date-Locked Milestone, 5-Day Deemed-Approval, Late-Pause, and 50% Kill-Fee clauses to my client agreement.
- ☐ **5. Legacy Account Rate Audit Complete:** I have identified any legacy client below 80% of my Target EHR and prepared a 30-day **Prompt 4.5** Grandfathering Upgrade Notice.

Practitioner Sign-Off Date: ____ / ____ / 2026 • **Ready for Chapter 5:** [YES]

Standalone Action Worksheet 05: The 48-Hour Onboarding & Asset Gate Checklist

Companion Workbook Edition: *The AI Freelancer Operating System* (Tiers 2–3 Interactive Workbook Suite)
Format Compatibility: Print (`US Letter 8.5" x 11"` / `ISO A4`), Interactive AcroForm PDF, and Hyperlinked Tablet Digital Planner (`GoodNotes / Notability / reMarkable`)
Paired Manuscript Chapter: Chapter 5 — *Zero-Friction Client Onboarding & Kickoff Architecture*

Instructions for Execution

Use this five-part standalone worksheet alongside **Prompts 5.1 through 5.5** for every new client engagement to move from cleared deposit to a 100% aligned, asset-verified production sprint in under 48 hours.

- **Client Name & Company:** `_____`
- **Package / Sprint Tier Purchased:** `_____`
- **Deposit Cleared Date & Timestamp (`Hour 00`):** `____ / ____ / 2026 at ____ : ____ AM/PM`

Part A: 48-Hour Onboarding Gate Tracker

No production work (`Bucket A`) may begin until Gates 01 through 04 are marked `[PASS]` :

Gate ID	Onboarding Gate Name	Target Hour Window	Required Verification Criteria	Gate Status	Verified Timestamp
Gate 01	**Commercial & Deposit Clearance**	`Hour 00`	Signed B.R.I.E.F. Agreement + Cleared Deposit in Stripe/Bank	`[ ] PASS`	`____/____ • ____:____`
Gate 02	**Pre-Flight Asset & Login Vault**	`Hours 01–24`	100% of files & 2FA-free logins verified in folder (**Prompt 5.1**)	`[ ] PASS`	`____/____ • ____:____`
Gate 03	**Communication Charter & SPOC**	`Hours 01–24`	Welcome Charter sent (**Prompt 5.2**) & 1 Client `SPOC` confirmed	`[ ] PASS`	`____/____ • ____:____`
Gate 04	**30-Min Kickoff & Milestone Lock**	`Hours 24–48`	30-Min Call completed (**5.3**) + Written Lock sent in 2h (**5.4**)	`[ ] PASS`	`____/____ • ____:____`
Gate 05	**Timeline Pause Circuit Breaker**	*If Delayed >48h*	**Prompt 5.5** sent shifting delivery dates Day-for-Day	`[ ] N/A / SENT`	`Shifted +____ Days`

Part B: Pre-Flight Asset & Credential Inventory Checklist (Prompt 5.1)

Audit every item below at Hour 24 and Hour 48. If **any** mandatory box is unchecked at Hour 48, hold the Kickoff Call and trigger **Prompt 5.5**:

Step B1: Strategic & Brand Production Files

- `[ ]` **1. Strategic Intake Questionnaire Completed:** All 6 calibration & anti-preference questions answered.
- `[ ]` **2. Primary Vector Brand Assets:** Master logos in `.svg` / `.eps` format + hex color & typography specs.
- `[ ]` **3. Approved Copy / Content / Data Inputs:** Final text documents, product data tables, or messaging decks.
- `[ ]` **4. High-Resolution Media / Photography:** Licensed product screenshots, headshots, or brand imagery.
- `[ ]` **5. Compliance / Legal Boilerplate:** Privacy Policy, Terms of Service, or industry disclaimer text.

Step B2: 2FA-Safe Technical Collaborator Access Table

Platform / Tool Name	Required Role / Permission Level	Studio Email Invited	Verified Login Without SMS 2FA?
1. _____	`Admin / Agency Collaborator`	_____	`[ ] VERIFIED`
2. _____	`Editor / Developer Access`	_____	`[ ] VERIFIED`
3. _____	`DNS / Domain Manager`	_____	`[ ] VERIFIED`
4. _____	`Analytics / Tracking Read-Write`	_____	`[ ] VERIFIED`

Part C: Client Communication Rules-of-Engagement Charter (Prompt 5.2)

Confirm that these four operational boundaries are explicitly stated in your Welcome Packet and verbally re-confirmed during Block 4 of your 30-Minute Kickoff Call:

Boundary Rule	Studio Standard Specification	Client Acknowledged?
1. Single Communication Channel	All project messages, files, and feedback live inside: _____ *(Zero WhatsApp, SMS, personal DMs, or split email threads)*	`[ ] YES`
2. Office Hours & Response SLA	Studio operating hours: `Mon–Fri, ____:____ AM to ____:____ PM [Timezone]` Response SLA: `Within 24 business hours` *(Mornings reserved for deep Maker Blocks)*	`[ ] YES`
3. Async Friday Status Cadence	Client receives a **3-Bullet Async Status Update (`Done / In-Flight / Blockers`)** every Friday by `____:____ PM` *(Replaces recurring status meetings)*	`[ ] YES`
4. Consolidated Revision Window	Client submits **1 unified feedback list** within `48–72 business hours` of each milestone delivery; delays shift final dates **Day-for-Day**	`[ ] YES`

Part D: Stakeholder & Approval Authority Matrix (Prompts 5.3 & 5.4)

Map every client stakeholder during the 30-Minute Kickoff Call and lock the **Single Point of Contact (`SPOC`)**:

Stakeholder Role	Name & Title	Email Address	Role in Review Process	Sole Sign-Off SPOC?
Designated Client SPOC	_____	_____	Collects all internal team notes; submits 1 unified list	`[ YES – OFFICIAL SPOC ]`
Executive / Co-Founder	_____	_____	Reviews internally via SPOC during Round 1 window	`[ No Direct Thread ]`
Technical / Subject Expert	_____	_____	Supplies Gate 02 specs; no post-kickoff scope changes	`[ No Direct Thread ]`

Locked Sprint Milestone Calendar (Dispatched via Prompt 5.4 Within 2 Hours of Call)

- **Official Sprint Production Start Date:** `____ / ____ / 2026`
- **Friday Async Update #1 Date:** `____ / ____ / 2026 by 2:00 PM`

- **Milestone 1 Staging Delivery Date:** `____ / ____ / 2026` *(Client Round 1 Feedback Due: `____ / ____ / 2026`)*
- **Final Handover & Milestone 2 Invoice Date:** `____ / ____ / 2026`

Part E: Chapter 5 Sign-Off Checklist

Verify completion of all five onboarding architecture gates before advancing to **Chapter 6 (*AI-Assisted Project Execution & Quality Control*)**:

- ☐ **1. Pre-Flight Intake Vault Built:** I have generated my custom questionnaire and 2FA-safe collaborator table via **Prompt 5.1**.
- ☐ **2. 1-Page Welcome Charter Template Saved:** I have created my **Prompt 5.2** Welcome Packet locking in single-channel comms, office hours, and Friday async updates.
- ☐ **3. 100% Asset Rule Enforced:** I have gated my 30-Minute Kickoff Call link so it activates only after **Part B** is 100% verified.
- ☐ **4. 30-Min Kickoff & 2-Hour Lock Ready:** I have saved **Prompt 5.3** and **Prompt 5.4** to lock the client `SPOC` and milestone calendar in writing.
- ☐ **5. Day-for-Day Circuit Breaker Armed:** I have saved **Prompt 5.5** to automatically shift delivery dates whenever a client delays assets past 48 hours.

Practitioner Sign-Off Date: `____ / ____ / 2026` • **Ready for Chapter 6:** `[ YES ]`

Worksheet 6.1: The 20/60/20 Sandwich Execution & 4-Gate Quality Assurance Workbook

Companion Chapter: Chapter 6 — *AI-Assisted Project Execution & Quality Control*
Edition: Tier 2 Interactive Workbook & Tier 3 Complete Freelancer Operating System
Operational Goal: Cut deliverable production time by 45% to 60% while eliminating generic AI output, factual hallucinations, and multi-round client revision loops.

How to Use This Operational Worksheet

Duplicate this worksheet for every major client deliverable you produce. Complete **Part A** and **Part B** during the first 20% of your production time block (Human Strategic Architecture), log your modular execution in **Part C** during the middle 60% (AI Heavy Lifting), and complete **Part D** and **Part E** during the final 20% (Human Editorial Polish & 4-Gate Pre-Submission Quarantine).

Part A: The 20% Human Architecture Pre-Prompt Brief

Complete this table before opening any AI workspace. Never ask a language model to generate a deliverable until your thesis, raw evidence, and negative constraints are locked.

Strategic Architecture Field	Your Project-Specific Input
1. Client Name & Project / Retainer Code	
2. Deliverable Title & Format *(e.g., 2,400-Word Technical Case Study, React Checkout Module, 6-Email Onboarding Flow)*	
3. Target Total Production Time Budget *(Break into 20% Architecture / 60% Synthesis / 20% Polish)*	**Total Budget:** `____ hrs` | **20% Top:** `____ hrs` | **60% Mid:** `____ hrs` | **20% Bottom:** `____ hrs`
4. Contracted SOW Success Criteria *(What exact outcome must this asset achieve for the buyer?)*	
5. Primary Stakeholder / Decision-Maker Persona *(Who is approving this and what do they care about most?)*	
6. Our Proprietary Thesis / Non-Obvious Angle *(2–3 sentences stating your unique practitioner insight that AI could never guess)*	
7. Verified Raw Evidence Inventory *(List exact SME interview transcripts, customer metrics, API docs, or telemetry files you will feed into Prompt 6.3)*	1. 2. 3. 4.
8. Known Stakeholder Objections to Pre-Empt *(What internal pushback must this deliverable neutralize proactively?)*	
9. Strict Negative Constraints (What NEVER to Do) *(List 5–8 banned claims, stylistic tropes, or technical approaches)*	1. 2. 3. 4. 5.

Part B: Client Voice & Constraint Calibration Card

*Extract this card once per client using **Prompt 6.2** on 2–3 Golden Samples of their best historical work, then reuse it across every project for that account.*

Voice & Style Dimension	Calibrated Client Rule / Specification
1. Golden Samples Analyzed *(List the 2–3 source files or URLs used for calibration)*	
2. Sentence Length & Rhythm Profile *(e.g., Average 14–18 words; alternate analytical explanations with 5-word declarative punchlines)*	
3. Authority & Epistemic Posture *(e.g., Empirical engineering peer, conservative risk advisor, direct revenue operator)*	
4. Pronoun & Perspective Convention *(e.g., First-person plural "we" for brand, direct "you" for CTO reader, zero passive voice)*	
5. Approved Domain Vocabulary (10 Signature Terms)	`1.` `2.` `3.` `4.` `5.` `6.` `7.` `8.` `9.` `10.`
6. Client-Specific Banned Words & Tropes (Beyond Standard AI Cliché Filter)	`1.` `2.` `3.` `4.` `5.` `6.` `7.` `8.` `9.` `10.`
7. Formatting & Structural Preferences *(Heading case, bullet density, code comment style, data table conventions)*	
8. Compressed 150-Word Voice Injection Block *(Paste the exact block from Prompt 6.2 Output #6 here for quick copy-paste)*	

Part C: The 60% AI Modular Workflow Execution Log

*Deconstruct your deliverable into 6 to 8 modules using **Prompt 6.1**, then execute **Prompt 6.3** one module at a time. Never generate the entire deliverable in a single turn.*

Module #	Module Title & Scope Target (Words / Lines)	Core Strategic Job of This Module	Specific Raw Evidence Injected (Quotes / Data / Specs)	Module-Specific Negative Constraint	Draft Status ([ ])
M1					`[ ]` Done
M2					`[ ]` Done
M3					`[ ]` Done
M4					`[ ]` Done
M5					`[ ]` Done
M6					`[ ]` Done
M7					`[ ]` Done
M8					`[ ]` Done

Part D: The 4-Gate Pre-Submission QA Scorecard

*Quarantine your assembled deliverable and audit it across all four gates using **Prompt 6.4** and **Prompt 6.5**. Do not upload the asset to the Client Portal until all 12 checks score* `PASS`.

Gate	#	Quality Assurance Verification Check	Status	Remediation Action Taken
GATE 1: Brief & Constraint Alignment	**1.1**	Every deliverable component and sub-item promised in the SOW and Kickoff Brief is present and complete.	`[ ] PASS` `[ ] FAIL`	
	1.2	Zero negative constraints from Part A (Field #9) were violated anywhere in the assembled draft.	`[ ] PASS` `[ ] FAIL`	
	1.3	The core strategic thesis and primary audience KPI are explicitly addressed in the opening and closing sections.	`[ ] PASS` `[ ] FAIL`	
GATE 2: Fact, Code & Logic Verification	**2.1**	Every statistic, percentage, benchmark, and customer quote traces directly to verified client inputs or primary sources.	`[ ] PASS` `[ ] FAIL`	
	2.2	Zero synthetic URLs, fabricated citations, or `[VERIFY DATA]` placeholders remain in the document.	`[ ] PASS` `[ ] FAIL`	
	2.3	All code blocks compile/pass unit tests, all spreadsheet formulas balance, and all technical workflows are step-complete.	`[ ] PASS` `[ ] FAIL`	
GATE 3: Red-Team & Voice Calibration	**3.1**	Assembled draft was stress-tested with **Prompt 6.4 (Red-Team Critique)** and top 5 vulnerabilities were rewritten.	`[ ] PASS` `[ ] FAIL`	
	3.2	Deliverable passes the Studio Strict Lexical Filter (zero occurrences of the 16 banned AI clichés or 7 banned transitional phrases defined in the Studio Style Guide).	`[ ] PASS` `[ ] FAIL`	
	3.3	Opening 150 words, section transitions, and closing 150 words were manually polished to match the Client Voice DNA Card.	`[ ] PASS` `[ ] FAIL`	
GATE 4: Executive Packaging & Framing	**4.1**	Delivery message includes the 3-bullet Executive Summary tying the work directly to the client's Kickoff KPIs.	`[ ] PASS` `[ ] FAIL`	
	4.2	Delivery message highlights 1–2 deliberate Strategic Trade-Offs made to protect the client's business goals.	`[ ] PASS` `[ ] FAIL`	
	4.3	A 3-minute async walkthrough video (Loom) is recorded and paired with a deadline for **one consolidated round** of stakeholder feedback.	`[ ] PASS` `[ ] FAIL`	

Part E: Chapter 6 Production Sign-Off & EHR Telemetry Log

Track your actual hours against your fixed-fee price to verify your Effective Hourly Rate gain from the 20/60/20 Sandwich Method:

- **Fixed-Fee Price Allocated to This Deliverable:** `$_____`
- **Actual Hours Logged — Layer 1 (20% Human Architecture):** `_____ hrs`
- **Actual Hours Logged — Layer 2 (60% AI Modular Synthesis):** `_____ hrs`
- **Actual Hours Logged — Layer 3 (20% Human Polish & 4-Gate QA):** `_____ hrs`
- **Actual Hours Logged — Post-Submission Client Revisions:** `_____ hrs` *(Target: < 1.0 round)*
- **Total Production Hours Invested:** `_____ hrs`
- **Realized Effective Hourly Rate (`Price ÷ Total Hours`):** `$_____ / hr`

Final Pre-Submission Sign-Off

- ☐ All 12 checks in **Part D (4-Gate QA Scorecard)** are marked `PASS`.

- ☐ Any new reusable prompt refinements or modular templates created during this project have been saved to the **Notion Prompt & SOP Vault**.
- ☐ Deliverable uploaded to Client Portal with Executive Context Wrapper on **Date:** `____ / ____ / 2026`.

Worksheet 7.1: The P.V.P. Scope Boundary, Feedback Consolidation & Collections Workbook

Companion Chapter: Chapter 7 — *Defeating Scope Creep & Difficult Client Conversations*
Edition: Tier 2 Interactive Workbook & Tier 3 Complete Freelancer Operating System
Operational Goal: Convert 70%+ of out-of-scope requests into paid Change Orders, eliminate multi-stakeholder feedback whiplash, and collect 100% of invoices on time with zero emotional friction.

How to Use This Operational Worksheet

Keep this workbook active alongside your Notion Client Portal throughout project delivery. Use **Part A** to monitor scope and revision counters across all active accounts, **Part B** to calculate and script paid Change Orders via the **P.V.P. Protocol**, **Part C** to consolidate multi-stakeholder feedback before starting any revision round, **Part D** to track overdue invoice escalations, and **Part E** to verify your weekly boundary health.

Part A: Active Project Scope & Revision Round Counter

Track every active fixed-fee project or monthly retainer below. Update the Revision Counter in both this sheet and the client's portal immediately after each consolidated revision sprint.

Project / Client Name	Signed SOW Core Deliverables	Designated Single Point of Contact (SPOC)	Included Revision Rounds (`Used / Max`)	Change Order Floor ($ Min)	Current Scope Status (`Green` / `At Risk` / `Change Order Pending`)
1.			`___ / ___`	`$250`	
2.			`___ / ___`	`$250`	
3.			`___ / ___`	`$250`	
4.			`___ / ___`	`$250`	
5.			`___ / ___`	`$250`	

Part B: The P.V.P. Change Order Calculation & Script Builder

Complete this diagnostic table during your 2-hour pause whenever a client asks, "Can you quickly add this?" or requests edits beyond their contracted revision allowance (Prompts 7.1 & 7.2).

P.V.P. Step & Diagnostic Field	Your Project-Specific Input & Calculation
1. Client Name, Project & Date of Request	
2. Exact Out-of-Scope Request or Extra Revision Ask	
3. SOW Clause / Boundary Triggered *(Why is this outside the current phase?)*	`[ ] Net-New Deliverable/Feature` `[ ] Architectural/Direction Pivot` `[ ] Exceeded Revision Round ___ of ___`
4. STEP 1 — PAUSE & VALIDATE HOOK *(1 warm sentence validating the commercial merit of their idea)*	*"That [Feature/Addition] is a smart move for [Client Business Goal] because..."*

P.V.P. Step & Diagnostic Field	Your Project-Specific Input & Calculation
5. STEP 2 — OBJECTIVE EFFORT & FEE MATH *(Never price a Change Order below $250)*	• **Raw Production Hours:** `____ hrs` • **QA, Deployment & Context-Switching Buffer (+25%):** `____ hrs` • **Total Hours (`H`):** `____ hrs` × **Target EHR (`$____/hr`)** = `$_____` • **Final Change Order Price (`Max($250, Calculated Fee)`):** `$_____` • **Milestone Schedule Shift Required:** `+____ Business Days`
6. STEP 3 — OPTION A (Fast-Track Paid Change Order)	*"We can add [Request] into the current sprint via a* ***`$_____`*** ***Change Order*** *(1-click approval link below), which shifts our target milestone delivery date by* ***`+____ business days`*** *to* ***`____/____/2026`*** *."*
7. STEP 3 — OPTION B (Zero-Cost Equal-Effort Swap)	*"If we need to keep the current budget and* ***`____/____/2026`*** *deadline fixed, we can swap out unstarted SOW item* ***`[Insert Item]`*** *and build* ***`[New Request]`*** *in its place."*
8. STEP 3 — OPTION C (Phase 2 Backlog Protection)	*"We can keep 100% focus on shipping our core Phase 1 launch on* ***`____/____/2026`*** *and lock* ***`[New Request]`*** *as Priority #1 in our Phase 2 Backlog starting immediately after launch."*
9. Client Decision Logged & Outcome	`[ ] Approved Option A ($_____ Billed)` `[ ] Selected Option B (Swap)` `[ ] Selected Option C (Phase 2)`

Part C: Multi-Stakeholder Feedback Consolidation & Conflict Sheet

Use this sheet alongside ***Prompt 7.3*** *and* ***Prompt 7.4*** *whenever multiple client team members leave comments on a deliverable. Never start a revision sprint until all conflicts in Section 2 are resolved by the SPOC.*

1. Revision Sprint Header

- **Client & Deliverable Reviewed:** `_____`
- **Revision Round Number:** `Round ____ of ____ Included Rounds`
- **Designated SPOC Approver:** `_____` | **Date Consolidated:** `____/____/2026`

2. Stakeholder Conflict & Tie-Breaker Resolution Table

Conflict #	Section / Component	Stakeholder A Instruction	Stakeholder B / Brief Instruction	Our Practitioner Recommendation	SPOC Final Tie-Breaker Decision
C1					
C2					
C3					

3. Unified In-Scope Revision Execution Checklist

Edit #	Deliverable Section	Consolidated Actionable Edit to Execute	Estimated Mins	Status (`[ ]`)
1			`____ mins`	`[ ] Done`
2			`____ mins`	`[ ] Done`
3			`____ mins`	`[ ] Done`
4			`____ mins`	`[ ] Done`
5			`____ mins`	`[ ] Done`
6			`____ mins`	`[ ] Done`

Part D: The 3-Stage Overdue Invoice Escalation Tracker

*Log any invoice that remains unpaid at 9:00 AM on the morning after its due date. Execute the **Prompt 7.5** scripts on the exact day triggers below without emotional hesitation.*

Invoice # & Client Name	Amount Due ($)	Original Due Date	Stage 1 Sent (Day +1 Warm Nudge)	Stage 2 Sent (Day +7 Work-Pause Activated)	Stage 3 Sent (Day +14 Late Fee + IP Hold)	Date Settled in Full & Days Shift Applied
1.	$	____/____	[ ] Sent ____/____	[ ] Sent ____/____	[ ] Sent ____/____	Paid: ____/____ (+___ days)
2.	$	____/____	[ ] Sent ____/____	[ ] Sent ____/____	[ ] Sent ____/____	Paid: ____/____ (+___ days)
3.	$	____/____	[ ] Sent ____/____	[ ] Sent ____/____	[ ] Sent ____/____	Paid: ____/____ (+___ days)

Part E: Chapter 7 Boundary Health Sign-Off & Profit Recovery Log

Review your boundary telemetry at the end of each month during your Weekly CEO Review:

- **Total Out-of-Scope Requests Received This Month:** _____ requests
- **Requests Converted to Paid Change Orders (Option A):** _____ ($_____ extra revenue)
- **Requests Swapped or Parked in Phase 2 Backlog (Options B & C):** _____ (_____ hrs saved)
- **Unbilled Scope Creep Hours Worked This Month:** _____ hrs *(Target: 0.0 hrs)*
- **Invoices Collected Before Editable Source-File Transfer:** _____ % *(Target: 100%)*

Final Chapter 7 Implementation Sign-Off

- ☐ Visible **Revision Counter**, **SPOC Rule**, and **Phase 2 Backlog** are live in 100% of active Client Portals.
- ☐ The 20-second **"Park & Price" verbal reflex** is printed or pinned near my workstation for live client calls.
- ☐ All five Chapter 7 prompts (Prompts 7.1–7.5) are saved inside my **Notion Prompt Vault** for 3-minute deployment.

Worksheet 8.1: Weekly Async Communication, 3-Minute Walkthrough & Revision Control Workbook

Companion Chapter: Chapter 8 — *Async Client Updates & Revision Minimization*
Edition: Tier 2 Interactive Workbook & Tier 3 Complete Freelancer Operating System
Operational Goal: Eliminate unscheduled check-in calls, protect 90-minute morning Maker Blocks, and reduce client revision cycles to <= 1.2 rounds per deliverable.

How to Use This Operational Worksheet

Use **Part A** every Friday at 1:30 PM to dispatch your 3-Bullet Status Pulses across all active accounts, **Part B** to storyboard your 3-Minute Walkthrough Video before shipping any milestone deliverable, **Part C** to build your Guided Feedback Frame (and translate vague feedback into concrete specs), **Part D** to log unscheduled call deflections and revision rounds, and **Part E** to verify your weekly deep-work continuity.

Part A: Weekly Friday 3-Bullet Status Pulse Template

*Complete and dispatch this pulse every Friday by 2:00 PM across all active projects using **Prompt 8.1**. Keep each update under 160 words so executives can scan it in 30 seconds.*

Client & Project Name	Status Badge (`GREEN` / `AMBER`)	1. Completed This Week *(Mapped to SOW Milestones)*	2. In Progress Next Week *(Confirming Target Dates)*	3. Blockers / Client Action Needed *(+ Exact Deadline)*	Sent by Fri 2PM? (`[ ]`)
1.					`[ ] Yes`
2.					`[ ] Yes`
3.					`[ ] Yes`
4.					`[ ] Yes`
5.					`[ ] Yes`

Part B: The 3-Minute Async Walkthrough Storyboard

*Never send a naked deliverable link. Complete this 4-beat storyboard (via **Prompt 8.2**) before recording your Loom/screen-share video. Keep total length strictly under 180 seconds.*

Storyboard Beat & Time Window	Screen-Share Visual Cue (`What to Show`)	Spoken Script / Talking Points (`What to Say`)
Beat 1: Commercial North Star *(0:00 – 0:30)*	Show signed Kickoff Brief KPI or top of deliverable	"*Today we're reviewing `[Deliverable]` engineered to achieve `[Signed Commercial KPI]` for `[Target Buyer Persona]` …*"
Beat 2: Top 3 Strategic Trade-Offs *(0:30 – 2:00)*	Scroll sequentially through the 3 core sections/features	• **Decision 1 & Why:** • **Decision 2 & Why:** • **Decision 3 & Pre-Empted Objection:**
Beat 3: Sandbox Boundary ("Ignore List") *(2:00 – 2:30)*	Highlight unfinished staging placeholders (if any)	"*During this pass, please ignore `[Staging Element A]` and `[Staging Element B]` —those are scheduled for our final polish pass.*"

Storyboard Beat & Time Window	Screen-Share Visual Cue (`What to Show`)	Spoken Script / Talking Points (`What to Say`)
Beat 4: Guided Review Call-to-Action *(2:30 – 3:00)*	Point cursor to the 3 Guided Questions in the portal post	*"Please review using the 3 questions below and have `[SPOC Name]` drop one consolidated set of notes here by `[Day/Time]`."*

Part C: Guided Feedback Question Builder & Vague-Critique Reframer

*Use Section 1 when posting a deliverable to prevent subjective critiques, and Section 2 (**Prompt 8.3 Part B**) whenever a client replies with vague feedback like "Make it pop" or "It doesn't feel right."*

1. Pre-Delivery Guided Feedback Frame (Paste Below Walkthrough Video)

- **Header Stamp:** `DELIVERY STATUS: MILESTONE [___] | INCLUDED REVISION ALLOWANCE: ROUND [___] OF [___]`
- **Guided Question 1 (Buyer & Positioning Fit):**
  _____
- **Guided Question 2 (Functional / Factual Accuracy):**
  _____
- **Guided Question 3 (Conversion & CTA Alignment):**
  _____
- **SPOC Consolidation Deadline:** `All team feedback consolidated by [SPOC Name] due: ____/____/2026 at ____:00 PM`

2. Vague Feedback to Commercial Option Translator

Vague Client Comment Received	Underlying Business Goal We Validate	Concrete Option 1 (Brief-Aligned)	Concrete Option 2 (Brief-Aligned)	Concrete Option 3 (Keep Current + Why)	Client Selection (`1/2/3`)
"Can we make this section pop more / feel more dynamic?"					
"Something about the tone/layout doesn't quite feel like us."					

Part D: Meeting Deflection & Revision Round Consolidation Ledger

*Track every unscheduled call request deflected via **Prompt 8.5** and every revision round closed via **Prompt 8.4**.*

1. Unscheduled Call Deflection Log

Date & Client	Original Call Request ("Quick 15-Min Sync")	Prompt 8.5 Path Chosen by Client (`Async Today` vs. `Office Hours + 2-Bullet Agenda`)	Deep-Work Hours Saved
1.		`[ ] Async Resolved Today` `[ ] Office Hours w/ Agenda`	`1.5 hrs`
2.		`[ ] Async Resolved Today` `[ ] Office Hours w/ Agenda`	`1.5 hrs`
3.		`[ ] Async Resolved Today` `[ ] Office Hours w/ Agenda`	`1.5 hrs`

2. Itemized Revision Round Completion & Sign-Off Ledger (Prompt 8.4)

Milestone & Round (`Round X of Y`)	Consolidated SPOC Edit Requests (`# of Items`)	Date Returned with Itemized Change Log	Written Milestone Sign-Off Received? (`[ ]`)
Milestone 1 — Round 1 of 2	`____ items`	`____/____/2026`	`[ ] Approved`
Milestone 1 — Round 2 of 2	`____ items`	`____/____/2026`	`[ ] Approved`
Milestone 2 — Round 1 of 2	`____ items`	`____/____/2026`	`[ ] Approved`
Milestone 2 — Round 2 of 2	`____ items`	`____/____/2026`	`[ ] Approved`

Part E: Chapter 8 Deep-Work & Async Mastery Sign-Off Checklist

Audit your weekly calendar and communication metrics every Friday afternoon:

- **Unscheduled / Ad-Hoc Client Calls Taken This Week:** `_____ calls` *(Target: `0`)*
- **90-Minute Unbroken Morning Maker Blocks Completed This Week:** `_____ / 10 blocks` *(Target: `>= 8`)*
- **Deliverables Shipped with a 3-Minute Walkthrough + 3 Guided Questions:** `_____ %` *(Target: `100%`)*
- **Average Revision Rounds per Completed Milestone:** `_____ rounds` *(Target: `<= 1.2`)*

Final Chapter 8 Implementation Sign-Off

- ☐ Recurring Friday 1:30 PM **3-Bullet Status Pulse** block is locked on my studio calendar.
- ☐ Slack, email, and portal notifications are muted every morning from **8:30 AM to 12:00 PM** during Maker Blocks.
- ☐ All five Chapter 8 prompts (`Prompts 8.1–8.5`) are stored in my **Notion Prompt Vault** for rapid daily execution.

Worksheet 9.1: Executive Handover Vault, ROI Case-Study & Retainer Bridge Workbook

Companion Chapter: Chapter 9 — *Smooth Offboarding, Case Studies & The Retainer Bridge*
Edition: Tier 2 Interactive Workbook & Tier 3 Complete Freelancer Operating System
Operational Goal: Package final deliverables with boutique authority, capture testimonials on 80%+ of projects in 60 seconds, and convert 35% to 50% of one-off sprints into recurring monthly retainers.

How to Use This Operational Worksheet

Activate this worksheet as soon as a client project enters its final milestone week. Complete **Part A** to assemble the client's **Executive Handover Vault** (**Prompt 9.1**), **Part B** to extract a 60-second pre-drafted testimonial and portfolio case study (**Prompts 9.2 & 9.3**), **Part C** to architect and pitch your **Next-90-Day Retainer Bridge** (**Prompt 9.4**), **Part D** to track your 30/60/90-day alumni referral loop (**Prompt 9.5**), and **Part E** to audit your Client Lifetime Value (LTV) expansion.

Part A: Executive Handover Vault & Maintenance SOP Checklist

*Verify that all six components below are assembled inside the client's Notion Portal (via **Prompt 9.1**) before releasing editable master source files upon final invoice settlement.*

#	Handover Vault Component	Specific Links / Assets Included	Verification Rule	Status ([ ])
1	**Final Milestone Invoice Cleared**	Invoice `#_____` (`$_____`)	100% of contract + any Change Orders settled prior to master source transfer.	`[ ]` `Verified`
2	**Before / After Executive ROI Recap**	Day-1 Bottleneck vs. Shipped System	4-row table quantifying exact deliverables shipped and target KPI impact.	`[ ]` `Verified`
3	**Master Deliverable & Source Directory**	Master URLs / Repos / Design Files	Includes explicit **30-Day Corporate Backup Notice** for client archival.	`[ ]` `Verified`
4	**5-Minute Owner Maintenance Video & SOP**	Loom URL + Step-by-Step Checklists	Covers top 3 routine client tasks clearly in non-technical language.	`[ ]` `Verified`
5	**"Do Not Modify Without Backup" Red-Zone**	List of fragile configs/scripts	Explicitly warns client team which settings require technical backup first.	`[ ]` `Verified`
6	**Credential Hygiene & Access Rotation**	Admin ownership transferred	Temporary staging keys rotated; studio shifted to collaborator/read-only role.	`[ ]` `Verified`

Part B: Before/After ROI & 60-Second Case-Study Extraction Grid

*Complete this grid using **Prompt 9.2** and **Prompt 9.3** within 24 to 72 hours of project handover while client excitement is at its Peak-End high point.*

Proof & Case-Study Element	Your Project-Specific Content
1. Client Name, Role & Company Profile	
2. The "Before" Bottleneck & Cost of Inaction *(What was broken or leaking revenue on Day 1?)*	
3. The System Intervention *(What core architecture did we build and in how many days?)*	

Proof & Case-Study Element	Your Project-Specific Content
4. Quantitative & Operational "After" Metrics *(Before vs. After numbers, speed, or conversion lift)*	• **Metric 1:** `Before: _____ -> After: _____` • **Metric 2:** `Before: _____ -> After: _____` • **Metric 3:** `Before: _____ -> After: _____`
5. Pre-Drafted Testimonial Option 1 (ROI Focus) *(Sent to client via Prompt 9.2 for 60-second approval)*	
6. Pre-Drafted Testimonial Option 2 (Process Focus) *(Sent to client via Prompt 9.2 for 60-second approval)*	
7. Compressed 3-Sentence Proposal Proof Snippet *(From Prompt 9.3 Asset 2 — ready for Chapter 3 proposals)*	
8. Publication Status	`[ ] Client Approved Quote` `[ ] Published on Portfolio` `[ ] Added to Proposal Vault`

Part C: The Next-90-Day Retainer Bridge Pitch Canvas

*Complete this diagnostic canvas 48 hours after delivering the Handover Vault using **Prompt 9.4**. Frame both monthly tiers around fixed outcomes and post-launch protection—never sell raw hours.*

1. The Three Post-Launch Gaps (Why Phase 1 Needs Ongoing Stewardship)

- **Gap 1 (Post-Launch Optimization / Testing Need):**
  _____
- **Gap 2 (Parked Phase-2 Backlog / Iteration Need):**
  _____
- **Gap 3 (Ongoing Technical / Editorial Maintenance Risk):**
  _____

2. Two-Tier Monthly Retainer Comparison Matrix

Retainer Architecture	Tier 1: Essential Assurance & Optimization	Tier 2: Growth Partner & Continuous Execution
Monthly Investment (`$ / Month`)	`$_____ / month`	`$_____ / month`
Primary Commercial Promise	Protect Phase 1 ROI, maintain system health, and ship 1 core optimization every month.	Compound Phase 1 ROI with continuous weekly production, A/B testing, and fractional strategy.
Fixed Monthly Deliverables *(3–5 concrete items; zero hourly timesheets)*	1. 2. 3.	1. *(All of Tier 1 plus:)* 2. 3.
Communication & SLA Rhythm	Async Portal + Friday 3-Bullet Pulse (`48h SLA`)	Async Portal + Friday Pulse + Monthly 30-Min Review (`24h SLA`)
Priority Continuation Incentive	Waive `$500` setup/re-onboarding fee if activated before `____ / 01 / 2026`.	Waive `$500` setup fee + lock 1 of 4 quarterly studio partner slots before `____ / 01 / 2026`.

Part D: The 30 / 60 / 90-Day Alumni & Warm Referral Tracker

*Log every completed client below. Execute **Prompt 9.5** on Day 30 and Day 60 with a personalized live observation and a copy-pasteable 3-sentence peer introduction blurb.*

Alumni Client & Project	Handover Date	Post-Project Path (`Retainer` / `Phase 2` / `Alumni`)	Day +30 Check-In & Telemetry Audit Sent	Day +60 Referral Script + 3-Line Blurb Sent	Referrals or Repeat Sprints Generated (`$`)
1.	`____/____`		`[ ] Sent ____/____`	`[ ] Sent ____/____`	`$`
2.	`____/____`		`[ ] Sent ____/____`	`[ ] Sent ____/____`	`$`
3.	`____/____`		`[ ] Sent ____/____`	`[ ] Sent ____/____`	`$`
4.	`____/____`		`[ ] Sent ____/____`	`[ ] Sent ____/____`	`$`
5.	`____/____`		`[ ] Sent ____/____`	`[ ] Sent ____/____`	`$`

Part E: Chapter 9 LTV & Recurring Revenue Sign-Off Checklist

Track your Stage 05 Expansion Gate metrics at the end of each quarter:

- **Projects Offboarded with Full Executive Handover Vault:** `_____ %` *(Target: `100%`)*
- **Client Testimonial Approval Rate (Within 7 Days of Handover):** `_____ %` *(Target: `>= 80%`)*
- **One-Off Projects Converted to Monthly Retainers or Phase 2 Sprints:** `_____ %` *(Target: `35%–50%`)*
- **Current Monthly Recurring Retainer Baseline (`MRR`):** `$_____ / month`

Final Chapter 9 Implementation Sign-Off

- ☐ Master **Executive Handover Vault** template (`Prompt 9.1`) is built inside my Notion Client Portal.
- ☐ **60-Second Pre-Drafted Testimonial** workflow (`Prompt 9.2`) and **Case Study Builder** (`Prompt 9.3`) are active on all closing sprints.
- ☐ My 2-Tier **Retainer Bridge Proposal** (`Prompt 9.4`) and **60-Day Referral Blurb** (`Prompt 9.5`) are saved in my Notion Prompt Vault.

Worksheet 10.1: The 20-Minute Friday CEO Scorecard, 80/20 Client Audit & 90-Day Scaling Workbook

Companion Chapter: Chapter 10 — *The Weekly CEO Review & 90-Day Scaling Roadmap*
Edition: Tier 2 Interactive Workbook & Tier 3 Complete Freelancer Operating System
Operational Goal: Run your entire freelance business in 20 minutes every Friday, eliminate low-EHR "whale traps," maintain >= 80% 60-day pipeline coverage, and scale net profit while capping your workweek at <= 38 hours.

How to Use This Operational Worksheet

Open this workbook (or the interactive **Weekly CEO Scorecard** tab inside `freelancer-os-app.html`) every Friday at 2:00 PM immediately after dispatching your Friday 3-Bullet Client Status Pulses. Complete **Part A** weekly (20 minutes), **Part B** on the final Friday of each month (10 minutes), and **Part C**, **Part D**, and **Part E** on the final Friday of each quarter (30 minutes).

Part A: The 20-Minute Friday CEO Weekly Scorecard

Log your weekly telemetry across all four 5-minute blocks every Friday afternoon between 2:00 PM and 2:20 PM.

5-Min Block	#	Executive Telemetry Metric	This Week's Actual	Target Studio Benchmark	Circuit-Breaker Action Triggered
BLOCK 1: Cashflow & EHR *(Mins 00–05)*	**1.1**	**Cash Collected This Week / Month-to-Date (`$`)**	`$_____` / `$_____`	On pace for `$_____/mo`	
	1.2	**Invoices Overdue > 24 Hours (`$ / #`)**	`$_____` (`___`)	`$0` (`0 overdue`)	If `> $0` : Send **Prompt 7.5 Stage 1/2** now
	1.3	**Realized Weekly EHR (`Cash ÷ Total Hours`)**	**`$_____ / hr`**	`>= $_____ / hr`	
BLOCK 2: Capacity *(Mins 05–10)*	**2.1**	**Total Working Hours Logged (`All Buckets`)**	`_____ hrs`	`<= 38.0 hrs / week`	
	2.2	**Billable Craft (`Bucket A`) vs. Admin (`Bucket B`)**	`____% A / ____% B`	`>= 75% Craft / < 15% Admin`	
	2.3	**Booked Capacity Utilization (Next 2 Weeks)**	`_____ %`	`70% – 85%` Sweet Spot	If `> 85%` for 2 wks: **Raise New Rates +20%**
BLOCK 3: Pipeline *(Mins 10–15)*	**3.1**	**Recurring Monthly Retainer Floor (`MRR`)**	`$_____` (`____%`)	`>= 50%` of monthly target	
	3.2	**60-Day Confirmed Revenue Coverage (`%`)**	`_____ %`	`>= 80%` of 60-day target	If `< 80%` : **Activate 3-Block Pipeline Mode**
	3.3	**Three Warm Pipeline Touches Sent Today**	`[ ] 1` `[ ] 2` `[ ] 3`	`3 / 3` sent before 2:15 PM	1 Proposal Follow-Up + 2 Alumni Check-Ins
BLOCK 4: System Lock *(Mins 15–20)*	**4.1**	**#1 Friction Bottleneck Fixed (SOP / Prompt)**	`_____`	1 system upgrade / week	Run **Prompt 10.4** if task `> 3 hrs/wk`
	4.2	**Next Week's 10 Morning Maker Blocks Locked**	`[ ] Locked in Cal`	Mon–Fri `8:30–11:30 AM`	Assign Monday Block 1 task before closing

---

Part B: Monthly Client-by-Client EHR & Friction Ranking Table

*Complete this table on the final Friday of every month using **Prompt 10.1**. Include both direct craft hours (`Bucket A`) and communication/revision/admin hours (`Bucket B`) for every account.*

Rank	Client Name & Package Type (`Retainer` / `Sprint`)	Gross Fee Collected (`$`)	Direct Craft Hours (`Bucket A`)	Admin, Calls & Revisions (`Bucket B`)	Total Hours (`A + B`)	True Realized EHR (`$ ÷ Total Hrs`)	Friction Score (`1–5`)	Account Verdict (`STAR` / `HEALTHY` / `WHALE TRAP`)
1		$	____h	____h	____h	$____/hr	___/5	
2		$	____h	____h	____h	$____/hr	___/5	
3		$	____h	____h	____h	$____/hr	___/5	
4		$	____h	____h	____h	$____/hr	___/5	
5		$	____h	____h	____h	$____/hr	___/5	
6		$	____h	____h	____h	$____/hr	___/5	
TOTAL	**Blended Studio Monthly Summary**	**$**	**____h**	**____h**	**____h**	**$____/hr**	**Avg:** ___	**Target EHR:** $____/hr

Part C: Quarterly 80/20 Client Keep / Reprice / Replace Decision Matrix

*Use this matrix at the end of every quarter alongside **Prompt 10.3** to prune or reprice your bottom-20% lowest-EHR account and upgrade your roster.*

Decision Category	Target Account(s) From Part B	Specific Commercial Action & Script to Deploy	Target Effective Date	Status (`[ ]`)
1. TOP 20% STAR ACCOUNTS *(Highest EHR + Low Friction)*		• Protect priority capacity • Pitch **Prompt 9.4 Tier 2 Retainer** or **Prompt 9.5 Peer Referral Blurb**	____/____/2026	[ ] Actioned
2. MIDDLE 60% HEALTHY ACCOUNTS *(Solid EHR + Moderate Admin)*		• Enforce **Chapter 8 Async Portal Rules** to trim `Bucket B` hours by 30% • Apply standard `+10%–15%` annual rate uplift on renewal	____/____/2026	[ ] Actioned
3. BOTTOM 20% WHALE TRAP / LOW-EHR *(EHR >30% Below Target or Friction >=4)*		• **Path A (Reprice):** Send **Prompt 10.3 Script A** (`+25%` rate adjustment + strict scope cap) • **Path B (Replace):** Secure 1 new sprint first, then send **Prompt 10.3 Script B** (30-Day Offboard)	____/____/2026	[ ] Actioned

Part D: 90-Day Revenue, Retainer & Rate-Raise Roadmap

*Lock your next 12-week scaling targets using **Prompt 10.5**. All income growth must come from EHR expansion, Retainer Bridge conversions, and rate increases—never from working more than 38 hours/week.*

Scaling Dimension	Current 90-Day Baseline	Next 90-Day Target	Exact System Lever to Pull
1. Monthly Net Revenue (`$ / Month`)	`$_____ / mo`	`$_____ / mo`	
2. Recurring Retainer Baseline (`MRR $ / %`)	`$_____` (`___%`)	`$_____` **(`>= 50%`)**	Pitch **Prompt 9.4 Retainer Bridge** on next `___` closing sprints
3. Blended Realized Studio EHR (`$ / Hr`)	`$_____ / hr`	`$_____ / hr`	Enforce **20/60/20 Sandwich** + **P.V.P. Change Orders**
4. Weekly Total Working Hours Ceiling	`_____ hrs / wk`	`<= 36-38 hrs / wk`	Mute morning comms + delegate 1 repetitive task via **Prompt 10.4**
5. Productized Package Pricing (`T1 / T2 / T3`)	`$____ / $____ / $____`	`$____ / $____ / $____`	Trigger `+20%` rate jump when utilization `> 85%` for 2 weeks

Part E: Chapter 10 & Full-System Mastery Sign-Off Checklist

Verify your complete installation of **The AI Freelancer Operating System** across all five stages of the Client Lifecycle Engine:

- ☐ **Stage 01 (Positioning & Packaging — Chapters 1 & 2):** Time & Revenue Leak Audit completed; core service packaged into a **3-Tier Productized Offer Matrix** (`Tier 1 Diagnostic` , `Tier 2 Core Sprint` , `Tier 3 Partner Retainer`).
- ☐ **Stage 02 (Lead Triage, Proposals & Pricing — Chapters 3 & 4): P.A.C.E. Lead Scorer**, **10-Minute B.R.I.E.F. Proposal Engine**, and **B.C.R. Pricing Formula** (`50% Upfront Deposit + Kill Fee + Timeline Pause Clause`) installed.
- ☐ **Stage 03 (Zero-Friction Onboarding — Chapter 5): 48-Hour Automated Kickoff Sequence**, **100% Pre-Flight Asset Gate**, **2FA-Safe Collaborator Table**, and **Single Point of Contact (`SPOC`) Charter** live.
- ☐ **Stage 04 (AI-Assisted Execution, Boundaries & Async Delivery — Chapters 6, 7 & 8): 20/60/20 Sandwich Execution**, **4-Gate QA Matrix**, **P.V.P. Change Order Protocol**, **Friday 3-Bullet Status Pulse**, and **3-Minute Walkthrough Videos** active on 100% of projects.
- ☐ **Stage 05 (Offboarding, Retainer Bridge & CEO Scaling — Chapters 9 & 10): Executive Handover Vault**, **60-Second Pre-Drafted Testimonial Capture**, **Next-90-Day Retainer Bridge Pitch**, and **20-Minute Friday CEO Operating Cadence** locked on my calendar.
